Hi Jora & Cristina,

We held a new coaches training last week which was attended by 18 participants, including 12 from Australia (10 from Northern Australia), 4 from Mongolia & 2 from Indonesia.

The names an email addresses for all the participants are attached below to include in the overall list of Coaches. We also went to get all of these people signed up to the CCNet listserve – what needs to happen for that to take place? Do you now add them, or do they have to email you directly?

Many thanks

Nat
